Wednesday, August 30

Dental Day with [Miles of Smiles](#)

DAS 2017 Update

We are only 40% away from our Donate A Smile Campaign goal of \$200,000. To learn more about what we accomplished last year with this campaign, please read the community report. This report highlights a year of accomplishments made possible through the work of our volunteers, collaboration with partner organizations, and the support from many in our community.

This year we are focused on empowering patients to lead healthy lifestyles, serving with Christian integrity, and increasing awareness of the gaps in the local health care system.
